Major examination

The basis for the examination in Bachelor Composition is the submission of original compositions (instrumental and/or electronic) and possibly further works (concepts, instrumentations, arrangements, style copies, etc.) in digital form.

Oral examination (duration: maximum 30 minutes):

- ability to react creatively to a given task; proof of basic knowledge of contemporary music (questions on compositional technique, stylistics, score study, instrumentation).

Music Theory / Ear Training

Written examination (written test) in music theory (composition/aural training) (duration approx. 1 hour):

Content: The written examination consists of an ear training and a musical composition part.

Ear training: monophonic rhythmic-melodic dictation - chord recognition, tasks on a longer sound example from CD - short polyphonic dictation.

Music theory: Determination of given chords under time pressure, harmonisation of a figured bass line (four-voices).
